

I support the comments filed by the Maritime Radio Historical Society (MRHS) regarding WRC-12. Specifically, I agree with the MRHS position that states the FCC should NOT support those portions of the recommendations for WRC-12...recommendations that would make digital data dominant in the maritime service to such an extent that KSM and other maritime stations could be forced off the air. KSM and others like it are pieces of radio history and must be preserved and allowed to continue to operate A1A and RTTY modes.

Thank you...
