

I'm writing in support of the comments filed by the Maritime Radio Historical Society (MRHS) regarding WRC-12. Specifically, I agree with the MRHS position that the FCC should not support those portions of the recommendations for WRC-12 that would adversely effect MRHS station KSM and other stations in the maritime service. MRHS, through the operation of KSM, continues to provide a valuable and irreplaceable communications service for many maritime interests which due to current world economic conditions do not now have digital communications technology.
