CC Docket No. 02-6

Request for Waiver

I am filing a request for an appeal of a deadline of the Pen Argyl Area School District form 471-application number 770803 for Entity 125929, in which funding year 2010-11 was postmarked outside of window letter for the 2010 funding year.

The service provider names on form 471 770803 are AT&T Mobility (498820000808941) and PenTeleData (498820000808941).

I am the only person in the district who handles E-rate; however, I also seem to be stretched too thin in all areas. This is the reason for the missed deadline. In all honesty, by my mistake of not reminding myself of the deadline the deadline was missed.

I am asking that you consider my request to waive the Form 471 filing deadline. The impact the E-rate money has on my district is crucial in the funding of our internet and phone services. Although the sum is small in comparison to other larger school districts, the money we receive is much needed too.

Thank you,
