

My name is Jeremy Hall, KB7QOA. I'm writing to support the comments filed by the Maritime Radio Historical Society (MRHS) regarding WRC-12. I agree with the MRHS position that the FCC should not support those portions of the recommendations for WRC-12 that would adversely effect MRHS station KSM and other stations in the maritime service. There are many boats out there that still use CW as the primary method of communications, and we need to not only preserve a part of our maritime history, but maintain the existing equipment in order to provide for emergency situations as they may arise.
