

I beg you to require Net Neutrality and to reject the Verizon/Google take over. I live on a boat and the net is my only access to news, information and email. Without vital Net Neutrality protections, companies like Verizon and Comcast, which have a commercial incentive to limit the free-flowing Web, can decide whether I will have a voice online. These companies should not have the power to determine my fate on the Internet.

The Verizon/Google proposal is exactly why the FCC must act now to protect Net Neutrality. Without it we will be like China with Google censoring our access. Please reclassify broadband as a "telecommunications service" and keep the Internet open and free of corporate gatekeepers.
