

Re: FCC proceeding 09-191

To: Chairman Genachowski

From: Richard DicKard, DDS

Dear Chairman Genachowski,

The Neutrality of the Net is of critical importance to my professional business and to me personally:

As a dentist equal access to the internet without constraint is critical in order to transfer electronic files confidentially on patients' treatments, x-rays, insurance forms and now the large file cone beam tomography results.

For me personally equal access to the internet is crucial. It is not for a corporation to decide either the amount or content of my use of the internet.

Please enact strong net neutrality provisions immediately.

Sincerely,

Richard DicKard, DDS
