Washington, DC 20554

**RE:** NSAC, LLC  
Transition of the 2500-2690 MHz Band for BRS and EBS  
Transition Area: BTA Number 459: Waco, Texas

Dear Ms. Dortch:

On February 12, 2007, NSAC, LLC (formerly Nextel Spectrum Acquisition Corp.), a wholly-owned subsidiary of Clearwire Corporation (together "Clearwire"), filed its Transition Initiation Plan for BTA Number 459: Waco. Pursuant to the Commission's Rules, that Transition was supposed to be completed by November 12, 2008. On December 16, 2008 Clearwire requested a brief extension of time within which to complete that Transition. On January 16, 2009, the Commission granted that request, providing Clearwire until February 28, 2009 within which to complete the Transition. On February 17, 2009, Clearwire filed an additional request which the Commission granted on September 14, 2009, giving Clearwire until March 15, 2010 to complete the Transition. On February 18, 2010, Clearwire filed an additional request which the Commission granted on March 15, giving Clearwire until September 15, 2010 to complete the Transition. As explained below, Clearwire finds it necessary to file the subject request for an additional extension of time in which to complete that Transition. A copy of this Request for Extension is being served on the parties to that Transition.<sup>1</sup>

Clearwire had originally requested this extension of time due to the pendency of a request for opt-out of the Transition related to Central Texas Communications, Inc. ("CTC") The Commission granted that request for opt-out on April 17, 2009. Clearwire and CTC have implemented a short-term solution to allow both parties to operate. Clearwire and CTC are in the process of negotiating a long-term solution that will allow both entities to provide the best possible service to their customers. Clearwire expects to have resolution in the very near future.

---

<sup>1</sup> Copies of this request for waiver are not being served on Clearwire entities.
