

why, in a three hour movie on TV must we suffer through at least one hour and a half, more or less, of mindless, stupid, uninformative and repetative ads? is there no law as to the portion of ads per hour. years ago it could not be more than 15 minutes per. now it seems the ads fill more time than the primary program--plus our having to pay cable to watch this junk! cable and broadcast companies are getting fat on our dime, all, while increasing cable costs and adding more and more ads--it's worse than junk mail! all, especially news cable companies, CNN, CNBC, MSNBC AND Fox on cable, plus CBS, NBC AND Channel 7 seem the worst, though those are the ones i watch most. to get three minutes of ads, followed by a one minute news "bite, followed by another three or four minutes of ads is an outrage! i am contacting my congressman and senators to correct this horror.
