Re: *Notice of Ex Parte Presentation* - CC Docket No. 01-92 and WC
Docket No. 07-135

Dear Ms. Dortch:

On September 29, 2010, CTIA–The Wireless Association® (“CTIA”) met with Christine Kurth of the Office of Commissioner Robert M. McDowell to discuss traffic pumping issues in the above-referenced dockets. CTIA was represented by Scott Bergmann, Assistant Vice President, Regulatory Affairs and David Redl, Director, Regulatory Affairs; as well as the following member company representatives: Brian Benison, AT&T; Mike Fingerhut and Norina Moy, Sprint Nextel; Indra Chalk, T-Mobile USA, Inc.; Peter Connolly, Holland & Knight (for United States Cellular Corp.); Tamara Preiss, Verizon; and, Elaine Critides, Verizon Wireless.

In the meeting, CTIA urged the Commission to take action now to address traffic pumping. Traffic pumping schemes are proliferating across the country; thus, Commission action in this area cannot wait for comprehensive intercarrier compensation reform. Consistent with the National Broadband Plan’s recommendations, the Commission should take “interim steps to address ... access stimulation.”¹ The Commission’s action in this area should address all types of traffic (including intra-MTA traffic) and all types of providers (including CLECs).

The discussion in the meeting was consistent with the attached presentation, which was distributed to meeting attendees. Pursuant to Section 1.1206 of the Commission’s rules, a copy of this letter, along with the attachment, is being filed via ECFS with your office.

¹ National Broadband Plan at 145, Rec. 8.1.

Should you have any questions, please do not hesitate to contact the undersigned.

Sincerely,

/s/ Scott K. Bergmann

Scott K. Bergmann
