**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

I. INTRODUCTION

Pursuant to 47 C.F.R. § 54.209, Alltel Communications, LLC¹ d/b/a Verizon Wireless, on behalf of itself and its subsidiaries and affiliates providing commercial mobile radio service (“CMRS”) in the State of Florida (collectively, “Verizon Wireless” or “Company”), submits this 2010 Eligible Telecommunications Carrier (“ETC”) Certification and Annual Report and respectfully requests that the Commission certify its continued eligibility to receive high-cost support from the federal universal service fund (“USF”) during calendar year 2011.

II. CONFIDENTIALITY

The data in this report and the attached exhibits represent commercial and financial trade secrets regarding Verizon Wireless’ network build-out plans and other matters that are highly sensitive due to the competitive nature of the CMRS industry. Accordingly, Verizon Wireless respectfully requests that the Commission treat this data as confidential and withhold it from public inspection pursuant to 47 C.F.R. §§ 0.457(d)(1) and 0.459.

III. BACKGROUND

In 2004, the Commission designated Alltel Communications, LLC (“Alltel”) as an ETC in certain non-rural telephone company wire centers pursuant to 47 U.S.C. § 214(e)(6).² A complete listing of the non-rural telephone company wire centers in which Alltel was designated as an ETC by this Commission is attached as **Exhibit A** (“Designated Area”). The Universal Service Administrative Company (“USAC”) assigned Alltel study area code (“SAC”) 219903 for its operations in Florida.

¹ Formerly named Alltel Communications, Inc.

² *In the Matter of Federal-State Joint Board on Universal Service, Verizon Wireless Communications, Inc. Petitions for Designation as an Eligible Telecommunications Carrier in Alabama, Florida, Georgia, North Carolina, and Virginia*, CC Docket 96-45, 19 FCC Rcd 20496 (WCB 2004).

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

On January 9, 2009, Cellco Partnership d/b/a Verizon Wireless acquired Alltel and each of its subsidiaries and affiliates.³ Cellco Partnership and each of its subsidiaries and affiliates, including Alltel, operate collectively under the Verizon Wireless name in Florida. The facilities and subscribers of each entity have been integrated into the Verizon Wireless operations.

IV. VERIZON WIRELESS' ANNUAL REPORT IN ACCORDANCE WITH SECTION 54.209(a)

47 C.F.R. § 54.209(a) requires a common carrier previously designated by the Commission as an ETC to report annually certain information no later than October 1 of each calendar year. Verizon Wireless respectfully submits the following information for the period January 1, 2009 through December 31, 2009 in satisfaction of the Commission's annual reporting requirement.

A. Service Improvement Plan Project Report

47 C.F.R. § 54.209(a)(1) requires an ETC to file a progress report on its previously filed Service Improvement Plan. 47 C.F.R. § 54.209(a)(1) specifically requires:

A progress report on its five-year service quality improvement plan, including maps detailing its progress towards meeting its plan targets, an explanation of how much universal service support was received and how it was used to improve signal quality, coverage, or capacity, and an explanation regarding any network improvement targets that have not been fulfilled. The information shall be submitted at the wire center level.

On October 1, 2008, Alltel submitted an updated Service Improvement Plan for the five-year period from January 1, 2008 through December 31, 2012, as Confidential Exhibit C to its 2008 Certification and Annual Report (the "Service Improvement Plan"). Verizon Wireless' progress report on the Service Improvement Plan for the period January 1, 2009 through

³ See *In the Matter of Applications of Cellco Partnership d/b/a Verizon Wireless and Atlantis Holdings LLC for Consent to Transfer Control of Licenses, Authorizations and Spectrum Manager and De Facto Transfer Leasing Arrangements*, WT Docket No. 08-95, Memorandum Opinion and Order and Declaratory Ruling, 23 FCC Rcd 17444 (2008) ("Merger Order").

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

December 31, 2009 is attached as **Confidential Exhibit B**. The progress report also includes (1) a map attached as **Confidential Exhibit C** detailing the Company's progress toward meeting its plan targets in 2009, (2) an explanation of how much universal service support was received in 2009 and how the support was used to improve signal quality, coverage or capacity, and (3) an explanation regarding network improvement targets that were not met. The progress report is submitted on a wire center-by-wire center basis.

Additionally, Verizon Wireless has updated the remaining three years of the Service Improvement Plan as set forth in the attached **Confidential Exhibit D**. The update includes all of the information required by 47 C.F.R. § 54.209(a)(1) for calendar years 2010 through 2012.

In 2011, Verizon Wireless will continue to utilize federal high-cost universal service support for the provision, maintenance and upgrading of the facilities and services for which the support is intended consistent with 47 U.S.C. § 254(e) and 47 C.F.R. § 54.7.

The projected expenditures included in **Confidential Exhibit D** are based on the assumption that Verizon Wireless will receive the projected amount of federal high-cost universal service support identified on **Exhibit E**. The estimates of Verizon Wireless' future universal service support reflect the condition of the *Merger Order* requiring a phase-down of high-cost support in equal 20 percent increments over a period of five years following the closing.⁴ The implementation of the phase-down of high-cost universal service support will be consistent with the Commission's recent decision.⁵

⁴ *Merger Order* ¶¶ 192-197.

⁵ *High-Cost Universal Service Support; Federal-State Joint Board on Universal Service; Request for Review of Decision of Universal Service Administrator by Corr Wireless Communications, LLC*, WC Docket No. 05-337, CC Docket No. 96-45, Order and Notice of Proposed Rulemaking, ¶¶ 14-17 (2010).

PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER

Beyond 2011, it is difficult, if not impossible, for Verizon Wireless to predict with any degree of certainty how much the Company may receive in federal high-cost universal service support. There are various factors that affect the total amount of support Verizon Wireless can be expected to receive, including but not limited to, the per line support that is available to incumbent telephone companies, federal policy changes, USAC reconciliations, and other factors beyond Verizon Wireless' control. If actual receipts differ from those assumed in this report, Verizon Wireless reserves the right to modify its projected capital and operating expenditures for the Designated Area.

B. Network Outages

47 C.F.R. § 54.209(a)(2) requires an ETC to report annually network outages within its ETC designated area. 47 C.F.R. § 54.209(a)(2) specifically requires:

[d]etailed information on any outage , as that term is defined in 47 C.F.R. 4.5, of at least 30 minutes in duration for each service area in which an eligible telecommunications carrier is designated for any facilities it owns, operates, leases, or otherwise utilizes that potentially affect (i) [a]t least ten percent of the end users served in a designated service area; or (ii) [a] 911 special facility, as defined in 47 C.F.R. 4.5(e). Specifically, the eligible telecommunications carrier's annual report must include information detailing: (A) [t]he date and time of onset of the outage; (B) [a] brief description of the outage and its resolution; (C) [t]he particular services affected; (D) [t]he geographic areas affected by the outage; (E) [s]teps taken to prevent a similar situation in the future; and (F) [t]he number of customers affected.

The required information for the time period January 1, 2009 through December 31, 2009 is contained within **Confidential Exhibit F**. Verizon Wireless has compiled and reported information for all outages that meet the above criteria within the Designated Area in Florida for the aforementioned time period. Such information includes any outage of at least 30 minutes in duration that potentially affected at least ten percent (10%) of its customers served in a service area or a 911 facility. The services affected by an outage were dependent upon the capabilities of the particular facility affected by the outage. Generally, a cell site or switch outage will affect

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

all services provided by the cell site or switch, including voice, data and/or 911 services. The information relating to the number of customers affected by an outage is estimated based on the number of customers with a billing address in each affected wire center as of December 31, 2009.

The steps taken by Verizon Wireless to prevent a similar outage in the future will vary based on a determination of the cause of the outage. Each network outage is examined on a case-by-case basis. For example, when the outage is due to equipment failure, the equipment is replaced or repaired and tested for proper performance, including preventive maintenance. Additionally, the manufacturer or vendor is notified if the failure appears to be in the design or manufacture of the equipment. If the vendor or manufacturer fails or refuses to remedy the deficiency then a replacement source is determined. Similarly, when the outage is due to weather or other natural occurrence, the probability of a repeat occurrence is considered and evaluated in planning the repair, replacement or rebuild of the equipment or location. Outages due to human error or a faulty process or practice will result in an appropriate reevaluation of the source of error and the need to correct, discipline or replace the person or practice, as applicable. An outage on a leased facility or circuit is escalated and corrected by the third-party facility provider. The outages reported on **Confidential Exhibit F** were not determined to require extraordinary measures other than application of the above procedures.

C. Unfulfilled Requests For Service

47 C.F.R. § 54.209(a)(3) requires an ETC to report annually the number of requests for service from potential customers within the ETC's designated area that were unfulfilled during the past year. The filing must also detail how the ETC attempted to provide service to those potential customers as set forth in Section 54.202(a)(1)(i). The required information concerning

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

Verizon Wireless' unfulfilled requests for service within the Designated Area in Florida from January 1, 2009 through December 31, 2009 is contained in **Exhibit G**.

D. Complaints Per 1,000 Handsets or Lines

47 C.F.R. § 54.209(a)(4) requires an ETC to report annually the number of complaints⁶ it receives per 1,000 handsets or lines. With respect to its operations in Florida, Verizon Wireless received 0.32 complaints per 1,000 handsets between January 1, 2009 and December 31, 2009.

E. Certification Regarding Applicable Service Quality Standards And Consumer Protection Rules

47 C.F.R. § 54.209(a)(5) requires an ETC to certify that it is complying with applicable service quality standards and consumer protection rules. Verizon Wireless' compliance with the CTIA Consumer Code for Wireless Service ("CTIA Consumer Code") satisfies this requirement. Verizon Wireless certifies that it has complied and will continue to comply with the principles set forth in the CTIA Consumer Code.

F. Certification Regarding Ability to Function in Emergency Situations

47 C.F.R. § 54.209(a)(6) requires an ETC to certify that it is able to function in emergency situations as set forth in Section 54.202(a)(2). Verizon Wireless provides the following information to demonstrate its ability to remain functional in emergency situations in satisfaction of this requirement. Verizon Wireless has a reasonable amount of back-up power to provide functionality without an external power source, an ability to reroute traffic around damaged facilities and a capability to manage traffic spikes resulting from an emergency situation.

⁶ Complaints consist of written complaints from its customers submitted to the Commission, the Florida Public Service Commission, the Florida Attorney General, the Better Business Bureau or similar third party agencies and oral, written, and e-mail complaints submitted to the Company's Executive Complaint Department.

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

Verizon Wireless has deployed fixed and portable back-up power generators at various locations throughout its network that can be deployed in emergency situations. These back-up power generators are capable of keeping a cell site up and running until power is restored to the cell site, a portable generator is moved to the site, system changes are made to reroute traffic or a cell on wheels (“COW”) is deployed. Verizon Wireless tests its back-up power generators regularly to ensure functionality.

Verizon Wireless is also capable of rerouting traffic around damaged or out-of-service facilities by changing call routing translations as needed. Verizon Wireless is generally able to deploy COWs as temporary cell sites when existing facilities are damaged or out-of-service for longer periods of time. Further, by changing call routing translations or deploying COWs, Verizon Wireless is generally able to manage traffic spikes resulting from an emergency situation throughout its network. As a long-term solution for managing increased traffic levels and traffic spikes, Verizon Wireless may increase capacity at its cell sites, switches and transport facilities. Verizon Wireless therefore certifies it is able to function in emergency situations as set forth in Section 54.202(a)(2).

G. Certification Regarding Provision Of A Comparable Local Usage Plan

47 C.F.R. § 54.209(a)(7) requires an ETC to certify it is offering a local usage plan comparable to that offered by the incumbent LEC in the relevant service areas. All of Verizon Wireless’ generally available voice service offerings are comparable to the local service offerings provided by the incumbent LECs serving the Designated Area. Verizon Wireless’ service offerings include varying amounts of local usage within an expansive local calling area, including plans with unlimited calling. Verizon Wireless also offers multiple service plans, which enables customers to select a plan that best meets their needs based on the amount of local calling included in each plan. Information concerning Verizon Wireless’ currently available

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

service offerings is available at www.verizonwireless.com. Verizon Wireless certifies it offers and will continue to offer at least one comparable local usage plan within the Designated Area as required by Section 54.209(a)(7).

H. Certification Regarding Equal Access

In compliance with 47 C.F.R. § 54.209(a)(8), Verizon Wireless certifies that the Commission, pursuant to 47 U.S.C. § 332(c)(8), may require the Company to provide equal access to long distance carriers in the event that no other ETC is providing equal access within the Designated Area.

[This space intentionally left blank]

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

CONCLUSION

Based on the foregoing information, and in accordance with 47 C.F.R. §§ 54.313 and 54.314, Verizon Wireless respectfully requests that the Commission certify its eligibility to continue receiving federal high-cost universal service support during calendar year 2011.

September 22, 2010
