CC Docket 96-45

CERTIFICATION

The undersigned, Mark R. Smith, does hereby certify as follows:

1. I serve as Assistant Secretary for Cellco Partnership d/b/a Verizon Wireless and each of its subsidiaries and affiliates providing commercial mobile radio service ("CMRS") in the State of North Carolina (collectively, "Verizon Wireless").

2. This certification is submitted in support of Verizon Wireless' 2010 Eligible Telecommunications Carrier Certification and Annual Report.

3. Verizon Wireless has been designated a competitive ETC in areas identified in **Exhibit A** of its 2010 Eligible Telecommunications Carrier Certification and Annual Report.

4. I have reviewed Verizon Wireless' 2010 Eligible Telecommunications Carrier Certification and Annual Report for the State of North Carolina and certify that the facts stated therein, of which I have personal knowledge, are true and correct to the best of my present knowledge, information and belief.

5. Consistent with 47 U.S.C. § 254(e) and 47 C.F.R. §§ 54.7, 54.313 and 54.314, Verizon Wireless certifies that all federal high-cost universal service support received will be used only for the provision, maintenance and upgrading of facilities and services for which the support is intended.

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

I. INTRODUCTION

Pursuant to 47 C.F.R. § 54.209, Cellco Partnership d/b/a Verizon Wireless, on behalf of itself and its subsidiaries and affiliates providing commercial mobile radio service (“CMRS”) in the State of North Carolina (collectively, “Verizon Wireless” or “Company”), submits this 2010 Eligible Telecommunications Carrier (“ETC”) Certification and Annual Report and respectfully requests that the Commission certify its continued eligibility to receive high-cost support from the federal universal service fund (“USF”) during calendar year 2011.

II. CONFIDENTIALITY

The data in this report and the attached exhibits represent commercial and financial trade secrets regarding Verizon Wireless’ network build-out plans and other matters that are highly sensitive due to the competitive nature of the CMRS industry. Accordingly, Verizon Wireless respectfully requests that the Commission treat this data as confidential and withhold it from public inspection pursuant to 47 C.F.R. §§ 0.457(d)(1) and 0.459.

III. BACKGROUND

In 2004, the Commission initially designated Alltel Communications, LLC¹ (“Alltel”) as an ETC in certain non-rural telephone company wire centers pursuant to 47 U.S.C. § 214(e)(6).² The Commission subsequently approved the expansion of Alltel’s designated service area in 2008 to include certain rural telephone company study areas and individual wire centers.³

¹ Formerly named Alltel Communications, Inc.

² *In the Matter of Federal-State Joint Board on Universal Service, Verizon Wireless Communications, Inc. Petitions for Designation as an Eligible Telecommunications Carrier in Alabama, Florida, Georgia, North Carolina, and Virginia*, CC Docket 96-45, 19 FCC Rcd 20496 (WCB 2004).

³ *In the Matter of High-Cost Universal Service Support, Federal–State Joint Board on Universal Service, Alltel Communications, Inc., et al. Petitions for Designation as Eligible*

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

A complete listing of the non-rural telephone company wire centers and rural telephone company study areas and wire centers in which Alltel was designated as an ETC by this Commission is attached as **Exhibit A** (“Designated Area”).

On January 9, 2009, Cellco Partnership acquired Alltel and each of its subsidiaries and affiliates.⁴ Cellco Partnership and each of its subsidiaries and affiliates, including Alltel, operate collectively under the Verizon Wireless name in North Carolina. The facilities and subscribers of each entity have been integrated into the Verizon Wireless operations. Accordingly, on May 28, 2010, the Commission approved a petition for *pro forma* amendment of the ETC designation held by Alltel and its affiliated legal entities in North Carolina to reflect Verizon Wireless as the designated entity.⁵

In connection with the Commission’s approval of the Alltel acquisition, Verizon Wireless was required to divest assets and customers within certain markets, including markets in the State of North Carolina. Prior to closing on the sale of the assets and customers required to be divested, a Management Trustee was appointed to manage the divested markets in North Carolina.⁶ In addition, for administrative purposes, the Universal Service Administrative Company (“USAC”) assigned the operations in North Carolina to be retained by Verizon

Telecommunications Carrier, WC Docket No. 05-337, CC Docket 96-45, 23 FCC Rcd 8834 (2008).

⁴ See *In the Matter of Applications of Cellco Partnership d/b/a Verizon Wireless and Atlantis Holdings LLC for Consent to Transfer Control of Licenses, Authorizations and Spectrum Manager and De Facto Transfer Leasing Arrangements*, WT Docket No. 08-95, Memorandum Opinion and Order and Declaratory Ruling, 23 FCC Rcd 17444 (2008) (“*Merger Order*”).

⁵ *In the Matter of Federal-State Board on Universal Service, Cellco Partnership d/b/a Verizon Wireless, Petitions for Pro Forma Amendment of Eligible Telecommunications Carrier Designations in the Commonwealth of Virginia and the States of Alabama and North Carolina*, WC Docket 09-197, CC Docket 96-45, 25 FCC Rcd 5955 (WCB 2010).

⁶ *Merger Order*, ¶¶ 15, 19, 157-163, Appendix B.

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

Wireless Study Area Code (“SAC”) 239003 and the operations to be divested by Verizon Wireless SAC 239001.

In 2009, Alltel filed an annual certification and report with the Commission for the retained operations in North Carolina assigned SAC 239003 and the Management Trustee separately filed an annual certification and report for the divested operations assigned SAC 239001. Effective April 26, 2010, all of the assets and customers required to be divested in North Carolina were transferred from Verizon Wireless to Atlantic Tele-Network, Inc., and the Trust established to operate the divested assets was dissolved. Accordingly, Verizon Wireless does not seek in this filing to certify SAC 239001, which was assigned for administrative purposes only during the period of the Management Trust.

IV. VERIZON WIRELESS’ ANNUAL REPORT IN ACCORDANCE WITH SECTION 54.209(a)

47 C.F.R. § 54.209(a) requires a common carrier previously designated by the Commission as an ETC to report annually certain information no later than October 1 of each calendar year. Verizon Wireless respectfully submits the following information for the period January 1, 2009 through December 31, 2009 in satisfaction of the Commission’s annual reporting requirement.

A. Service Improvement Plan Project Report

47 C.F.R. § 54.209(a)(1) requires an ETC to file a progress report on its previously filed Service Improvement Plan. 47 C.F.R. § 54.209(a)(1) specifically requires:

A progress report on its five-year service quality improvement plan, including maps detailing its progress towards meeting its plan targets, an explanation of how much universal service support was received and how it was used to improve signal quality, coverage, or capacity, and an explanation regarding any network improvement targets that have not been fulfilled. The information shall be submitted at the wire center level.

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

On October 1, 2008, Alltel submitted an updated Service Improvement Plan for the five-year period from January 1, 2008 through December 31, 2012, as Confidential Exhibit C to its 2008 Certification and Annual Report (the "Service Improvement Plan"). Verizon Wireless' progress report on the Service Improvement Plan for the period January 1, 2009 through December 31, 2009 is attached as **Confidential Exhibits B-1 and B-2**. For purposes of this report, **Confidential Exhibit B-1** includes data associated with the retained operations in North Carolina, and **Confidential Exhibit B-2** contains data associated with the divested operations. The progress report also includes (1) a map attached as **Confidential Exhibit C** detailing the Company's progress toward meeting its plan targets in 2009,⁷ (2) an explanation of how much universal service support was received in 2009 and how the support was used to improve signal quality, coverage or capacity, and (3) an explanation regarding network improvement targets that were not met. The progress report is submitted on a wire center-by-wire center basis.

Additionally, Verizon Wireless has updated the remaining three years of the Service Improvement Plan as set forth in the attached **Confidential Exhibit D**. The update includes all of the information required by 47 C.F.R. § 54.209(a)(1) for calendar years 2010 through 2012.

In 2011, Verizon Wireless will continue to utilize federal high-cost universal service support for the provision, maintenance and upgrading of the facilities and services for which the support is intended consistent with 47 U.S.C. § 254(e) and 47 C.F.R. § 54.7.

The projected expenditures included in **Confidential Exhibit D** are based on the assumption that Verizon Wireless will receive the projected amount of federal high-cost universal service support identified on **Exhibit E**. The estimates of Verizon Wireless' future universal service support reflect the condition of the *Merger Order* requiring a phase-down of

⁷ The cell site locations and signal coverage depicted on Confidential Exhibit C include only retained operations in North Carolina.

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

high-cost support in equal 20 percent increments over a period of five years following the closing.⁸ The implementation of the phase-down of high-cost universal service support will be consistent with the Commission's recent decision.⁹

Beyond 2011, it is difficult, if not impossible, for Verizon Wireless to predict with any degree of certainty how much the Company may receive in federal high-cost universal service support. There are various factors that affect the total amount of support Verizon Wireless can be expected to receive, including but not limited to, the per line support that is available to incumbent telephone companies, federal policy changes, USAC reconciliations, and other factors beyond Verizon Wireless' control. If actual receipts differ from those assumed in this report, Verizon Wireless reserves the right to modify its projected capital and operating expenditures for the Designated Area.

B. Network Outages

47 C.F.R. § 54.209(a)(2) requires an ETC to report annually network outages within its ETC designated area. 47 C.F.R. § 54.209(a)(2) specifically requires:

[d]etailed information on any outage , as that term is defined in 47 C.F.R. 4.5, of at least 30 minutes in duration for each service area in which an eligible telecommunications carrier is designated for any facilities it owns, operates, leases, or otherwise utilizes that potentially affect (i) [a]t least ten percent of the end users served in a designated service area; or (ii) [a] 911 special facility, as defined in 47 C.F.R. 4.5(e). Specifically, the eligible telecommunications carrier's annual report must include information detailing: (A) [t]he date and time of onset of the outage; (B) [a] brief description of the outage and its resolution; (C) [t]he particular services affected; (D) [t]he geographic areas affected by the outage; (E) [s]teps taken to prevent a similar situation in the future; and (F) [t]he number of customers affected.

⁸ *Merger Order* ¶¶ 192-197.

⁹ *High-Cost Universal Service Support; Federal-State Joint Board on Universal Service; Request for Review of Decision of Universal Service Administrator by Corr Wireless Communications, LLC*, WC Docket No. 05-337, CC Docket No. 96-45, Order and Notice of Proposed Rulemaking, ¶¶ 14-17 (2010).

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

The required information for the time period January 1, 2009 through December 31, 2009 is contained within **Confidential Exhibits F-1** and **F-2**. Verizon Wireless has compiled and reported information for all outages that meet the above criteria within the Designated Area in North Carolina for the aforementioned time period. For purposes of this report, **Confidential Exhibit F-1** includes data associated with the retained operations in North Carolina, and **Confidential Exhibit F-2** contains data associated with the divested operations. Such information includes any outage of at least 30 minutes in duration that potentially affected at least ten percent (10%) of its customers served in a service area or a 911 facility. The services affected by an outage were dependent upon the capabilities of the particular facility affected by the outage. Generally, a cell site or switch outage will affect all services provided by the cell site or switch, including voice, data and/or 911 services. The information relating to the number of customers affected by an outage is estimated based on the number of customers with a billing address in each affected wire center as of December 31, 2009.

The steps taken by Verizon Wireless to prevent a similar outage in the future will vary based on a determination of the cause of the outage. Each network outage is examined on a case-by-case basis. For example, when the outage is due to equipment failure, the equipment is replaced or repaired and tested for proper performance, including preventive maintenance. Additionally, the manufacturer or vendor is notified if the failure appears to be in the design or manufacture of the equipment. If the vendor or manufacturer fails or refuses to remedy the deficiency then a replacement source is determined. Similarly, when the outage is due to weather or other natural occurrence, the probability of a repeat occurrence is considered and evaluated in planning the repair, replacement or rebuild of the equipment or location. Outages due to human error or a faulty process or practice will result in an appropriate reevaluation of the

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

source of error and the need to correct, discipline or replace the person or practice, as applicable. An outage on a leased facility or circuit is escalated and corrected by the third-party facility provider. The outages reported on **Confidential Exhibits F-1** and **F-2** were not determined to require extraordinary measures other than application of the above procedures.

C. Unfulfilled Requests For Service

47 C.F.R. § 54.209(a)(3) requires an ETC to annually report annually the number of requests for service from potential customers within the ETC's designated area that were unfulfilled during the past year. The filing must also detail how the ETC attempted to provide service to those potential customers as set forth in Section 54.202(a)(1)(i). The required information concerning Verizon Wireless' unfulfilled requests for service within the Designated Area in North Carolina from January 1, 2009 through December 31, 2009 is contained in **Exhibits G-1** and **G-2**. For purposes of this report, **Exhibit G-1** includes data associated with the retained operations in North Carolina, and **Exhibit G-2** contains data associated with the divested operations.

D. Complaints Per 1,000 Handsets or Lines

47 C.F.R. § 54.209(a)(4) requires an ETC to report annually the number of complaints¹⁰ it receives per 1,000 handsets or lines. With respect to the retained operations in North Carolina, Verizon Wireless received 0.22 complaints per 1,000 handsets between January 1, 2009 and December 31, 2009. With respect to the divested operations in North Carolina, Verizon Wireless received 0.22 complaints per 1,000 handsets between January 1, 2009 and December 31, 2009.

¹⁰ Complaints consist of written complaints from its customers submitted to the Commission, the North Carolina Utilities Commission, the North Carolina Attorney General, the Better Business Bureau or similar third party agencies and oral, written, and e-mail complaints submitted to the Company's Executive Complaint Department.

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

E. Certification Regarding Applicable Service Quality Standards And Consumer Protection Rules

47 C.F.R. § 54.209(a)(5) requires an ETC to certify that it is complying with applicable service quality standards and consumer protection rules. Verizon Wireless' compliance with the CTIA Consumer Code for Wireless Service ("CTIA Consumer Code") satisfies this requirement. Verizon Wireless certifies that it has complied and will continue to comply with the principles set forth in the CTIA Consumer Code.

F. Certification Regarding Ability to Function in Emergency Situations

47 C.F.R. § 54.209(a)(6) requires an ETC to certify that it is able to function in emergency situations as set forth in Section 54.202(a)(2). Verizon Wireless provides the following information to demonstrate its ability to remain functional in emergency situations in satisfaction of this requirement. Verizon Wireless has a reasonable amount of back-up power to provide functionality without an external power source, an ability to reroute traffic around damaged facilities and a capability to manage traffic spikes resulting from an emergency situation.

Verizon Wireless has deployed fixed and portable back-up power generators at various locations throughout its network that can be deployed in emergency situations. These back-up power generators are capable of keeping a cell site up and running until power is restored to the cell site, a portable generator is moved to the site, system changes are made to reroute traffic or a cell on wheels ("COW") is deployed. Verizon Wireless tests its back-up power generators regularly to ensure functionality.

Verizon Wireless is also capable of rerouting traffic around damaged or out-of-service facilities by changing call routing translations as needed. Verizon Wireless is generally able to deploy COWs as temporary cell sites when existing facilities are damaged or out-of-service for

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

longer periods of time. Further, by changing call routing translations or deploying COWs, Verizon Wireless is generally able to manage traffic spikes resulting from an emergency situation throughout its network. As a long-term solution for managing increased traffic levels and traffic spikes, Verizon Wireless may increase capacity at its cell sites, switches and transport facilities. Verizon Wireless therefore certifies it is able to function in emergency situations as set forth in Section 54.202(a)(2).

G. Certification Regarding Provision Of A Comparable Local Usage Plan

47 C.F.R. § 54.209(a)(7) requires an ETC to certify it is offering a local usage plan comparable to that offered by the incumbent LEC in the relevant service areas. All of Verizon Wireless' generally available voice service offerings are comparable to the local service offerings provided by the incumbent LECs serving the Designated Area. Verizon Wireless' service offerings include varying amounts of local usage within an expansive local calling area, including plans with unlimited calling. Verizon Wireless also offers multiple service plans, which enables customers to select a plan that best meets their needs based on the amount of local calling included in each plan. Information concerning Verizon Wireless' currently available service offerings is available at www.verizonwireless.com. Verizon Wireless certifies it offers and will continue to offer at least one comparable local usage plan within the Designated Area as required by Section 54.209(a)(7).

H. Certification Regarding Equal Access

In compliance with 47 C.F.R. § 54.209(a)(8), Verizon Wireless certifies that the Commission, pursuant to 47 U.S.C. § 332(c)(8), may require the Company to provide equal access to long distance carriers in the event that no other ETC is providing equal access within the Designated Area.

**PUBLIC VERSION
CONFIDENTIAL VERSION FILED UNDER SEPARATE COVER**

CONCLUSION

Based on the foregoing information, and in accordance with 47 C.F.R. §§ 54.313 and 54.314, Verizon Wireless respectfully requests that the Commission certify its eligibility to continue receiving federal high-cost universal service support during calendar year 2011.
