

**IWG-4 Recommendations regarding the US Proposals on integrated MSS Systems
Agenda Items 7, 4 and 8.1**

Agenda Item 7:

Summary

IWG-4 began considering draft US proposals recommendations regarding integrated MSS systems at its XXX meeting. After considering multiple iterations of integrated MSS system proposals over a [X] month period, , IWG-4 members were unable to reach consensus recommended proposals on integrated MSS systems.

Annex A to this document contains proposals advocated and supported by LightSquared and some other IWG-4 members.

LightSquared respectfully submits this document and Annex A containing recommended Integrated MSS System proposals, and requests that the Chair and/or vice-Chair of IWG-4 present these documents to the FCC's WRC Advisory Committee for approval as proposals recommended to the FCC.
