Re: *Errata to Reply Comments*, WC Docket No. 07-245; GN Docket 09-51

Dear Ms. Dortch,

On October 4, 2010 the DAS Forum, a membership section of PCIA—The Wireless Infrastructure Association timely filed reply comments to the FCC’s Further Notice of Proposed Rulemaking in the above captioned dockets.¹ Subsequent to our timely filing, we discovered an error in the text of the reply comments. We submit this letter and revised comments to correct the record. We also include the original attachment to our reply comments, which was unaffected by the error.

Specifically, we note that the first full sentence on page 15 has been changed to accurately read “NextG notes that it has deployed 5,000 wireless nodes across the country.” We respectfully request that the Commission accept this letter and revised comments.

Please do not hesitate to contact me with any questions.

Sincerely,

/s/

Brian Regan
