

My name is Jay Ravitsky of Philadelphia, PA, am deaf and blind which have required inheriting Usher's Syndrome, Type 1 and Retinal Pigmentosa.

In behalf, I am taking an opportunity to write the comment on your concern.

I could not afford to get the cellphone which enhance the size of reading including text, font known as magnification cellphone. The manufacturer sound great known as Blackberry. I am aware of how communication for traveling if the case of emergency during the travel or any health which I am independent alone.

I would like to know what they can do for braille feature or large size of reader magnifying device of cellphone.
