Re: Notice of Oral *Ex Parte* Communication
GN Docket No. 09-191, WC Docket No. 07-52

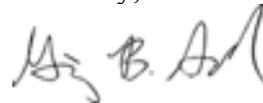

Dear Ms. Dortch:

On November 29 and November 30, 2010, I spoke via telephone with Zac Katz, Legal Advisor for Wireline Communications, International and Internet Issues for Chairman Genachowski. This notice is submitted in compliance with Section 1.1206(b) of the Commission's Rules.

On November 29, Mr. Katz and I discussed the possibility of the Commission adopting open Internet rules based upon the legislative framework proposed recently by Representative Waxman. Specifically, we discussed 1) the importance of language strongly disfavoring paid prioritization over the open Internet and 2) the need to clarify and narrow any exemption from the definition of "broadband Internet access service" for "virtual private network services, content delivery network services, multichannel video programming services, hosting or data storage services, or Internet backbone services, if separately available."

On November 30, Mr. Katz and I discussed the importance of an expedited mechanism for resolving open Internet complaints. I referred him to the January 14, 2010 comments filed by Public Knowledge and other public interest parties in the above referenced docket for further details on this issue.

Sincerely,

Gigi B. Sohn
President
