**Re: Notice of Oral Ex Parte Presentation
Regarding GN Docket No. 09-191 & WC Docket No. 07-52**

Dear Ms. Dortch:

On behalf of QUALCOMM Incorporated (“Qualcomm”), this is to report that on Wednesday, December 1, 2010, I spoke with Josh Gottheimer of the Chairman’s office about the above-referenced proceedings. I expressed strong support for the Chairman’s efforts to resolve what has been a contentious issue. Like all stakeholders, while we want to see the details of any ruling, my reaction to the approach described yesterday was that it appeared to be a good middle ground compromise that should be workable for the mobile industry and beneficial for consumers by recognizing that mobile broadband networks, unlike fixed broadband networks, operate on limited spectrum and, therefore, that mobile broadband network operators need to be able to manage their networks to encourage the conservation of scarce bandwidth. It would also allow the development of new business models for mobile broadband and should not discourage investment or innovation.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'D. Brenner', written over a horizontal line.

Dean R. Brenner
Vice President, Government Affairs
