Re: Preserving the Open Internet, GN Docket No. 09-191

Dear Ms. Dortch:

On December 14, 2010, David Young and Ian Dillner of Verizon spoke by telephone with Brad Gillen, Legal Advisor to Commissioner Baker. We discussed the technical capabilities of LTE data networks. In particular, we discussed the low-latency characteristics of LTE networks, enabling real-time communications in ways that previous generations of wireless data networks did not. We also described the 3GPP global standard for LTE networks.

Please contact me if you have any questions.

Respectfully submitted,

A handwritten signature in black ink that reads "Ian Dillner".
