Dear Ms. Dortch:

This is to inform you that on December 13, 2010, Walter McCormick, Jonathan Banks and the undersigned, representing USTelecom, met with Commissioner Mignon Clyburn and her Legal Advisor, Angela Kronenberg, in connection with the proceedings identified above.

During this meeting, USTelecom emphasized the continuing absence of a problem for which the proposed Internet regulations are supposedly intended to address. Indeed, the Commission's own recently released studies demonstrate that the vast majority of consumers satisfied with their Internet experience and do not perceive any impediment to switching to another provider if they chose to do so.

USTelecom also urged the Commission to move forward with fixing problems with the inter-carrier compensation and universal service regimes, issues upon which there is broad consensus on the urgent need for Commission action. In particular, we urged the Commission to take immediate substantive action on the issues of phantom traffic, traffic pumping and compensation for IP-based traffic.

Please include this ex parte in the record of the above-referenced proceedings.

Sincerely,

A handwritten signature in black ink, appearing to read "Glenn Reynolds", written over a light blue horizontal line.
