

STOP THIS MERGER!

Comcast taking over NBC Universal would transform it into a media giant, giving Comcast control over major box office releases and a wide range of popular television programming. There is fear that cable giant Comcast Corp. will stifle video competition once it takes control of NBC Universal.

That is really a monopoly which will restrict our choices and drive up prices.

STOP THIS MERGER COMPLETELY, don't just demand conditions to protect the consumer, which Comcast can nullify over time.
