**PETITION FOR RULEMAKING**

Charles Crawford, the designated entity and winning bidder in Auction 70 for Channel 282A, Benavides, Texas, hereby submits this Petition for Rulemaking. This Petition is filed as part of a "hybrid" contingent proposal, involving both this rulemaking proposal and a simultaneously filed minor change application which proposes to change the Channel of 282A, Benavides, Texas to 232A<sup>1</sup>. In order to accomplish this change, Crawford requests, in this Petition for Rulemaking, that the Commission substitute Channel 282A for vacant Channel 232A at Hebbbronville, Texas.<sup>2</sup> In

<sup>1</sup> Crawford has filed a Form 301 Application (with requisite fee) seeking the channel substitution.

<sup>2</sup> Pursuant to the Commission's new allotment procedures, "changes to vacant allotments will continue to be made via notice-and-comment rule making procedures." See Revision of Procedures Governing Amendments to FM Table of

No. of Copies rec'd 0+4  
L.M. ABCDE  
MB Audio 10-131

support hereof, Crawford states as follows:

1. The Benavides, Texas minor amendment to a pending application will allow Channel 282A at Benavides, Texas to move to Channel 232A at a tower site located closer to its city of license. Thus, this proposal as a whole serves the public interest.

2. As demonstrated in the attached engineering, Channel 282A can be allotted to Hebbronville consistent with Section 73.207 of the Commission's Rules. A 70 dBu signal can be provided to Hebbronville from the proposed reference coordinates (the coordinates proposed herein are the same as those currently used for the existing allotment).

Attached hereto is a channel study confirming that Channel 282A can be substituted for the vacant allotment, Channel 232A at Hebbronville, Texas, consistent with Section 73.207 of the Commission's rules<sup>3</sup> with respect to all existing and proposed domestic allotments and facilities. (See, Attachment A) A 70 dBu allotment signal can be provided to Hebbronville, Texas. Reference coordinates for Channel 282A at Hebbronville, Texas

98 44 26 W

Accordingly, Crawford requests in this Petition for Rulemaking that the Commission substitute Channel 282A for the vacant Channel 232A at Hebronville in order to allow for the non-adjacent channel change, as described in the simultaneously filed minor amendment to a pending application, of 232A for 282A at Benavides, Texas.

The factual information provided in this Petition for Rulemaking is correct and true to the best of my knowledge.

Respectfully submitted,

Charles Crawford
