**Re: *Ex Parte*, WT Docket No. 10-4**

Dear Ms. Dortch:

This is to inform you that on January 13, 2011, Michael Rodgers, Founder and CTO, of Wireless Extenders, Inc. ("Wi-Ex") and the undersigned spoke via telephone with Roger Noel and Tom Derenge of the Wireless Telecommunications Bureau.

The purpose of the conversation was to discuss issues related to the above-captioned proceeding pertaining to the use of signal booster devices used by consumers of commercial wireless services. We discussed approaches to ensure that consumers were able to continue using signal booster devices, which meet an important consumer demand and enable consumers to receive wireless signals where they live, work, and play. Specifically, we discussed how Wi-Ex's signal booster devices ensure that they do not interfere with wireless carrier networks through appropriate limitations on gain, oscillation control, and limiting output signal power using automatic gain control.

Please direct any questions regarding this matter to the undersigned.

Respectfully,

A handwritten signature in black ink that reads "T. Devendra Kumar". The signature is written in a cursive style with a prominent underline under the name "Kumar".
