

I, for one am glad to see the FCC requirement for new build out requirements for the Comcast\NBC merger and would hope to see more of it in the future. As someone one who has to pay Hughes \$90 a month for what barely passes for broadband I think it's about time someone thought about rural customer's needs. I live 2 miles from a Comcast line but repeated requests for service has fell on deaf ears, perhaps now true broadband will reach those who do not live in high density sub divisions. Thank you FCC.
