The Company's submission consists of highly confidential materials, and is being filed pursuant to the instructions in the *Data Request* as well as the *Second Protective Order* issued in this proceeding.² One highly confidential version of the filing – with an attached CD-ROM containing the responsive data – is being submitted under separate cover. Because the entire data specification response is highly confidential, this public version of the Company's submission does not include a copy of the CD-ROM. Finally, two copies of the highly confidential submission are being delivered today to the Pricing Policy Division, attention: Marvin Sacks.

A contact person for questions regarding the content of the submission is identified in the response. If there are any logistical issues with the filing itself, please contact the undersigned. Thank you for your assistance with this matter.

Sincerely,

Winifred Brantl
