RE: Notice of Ex Parte: CG Docket 10-51

Dear Ms. Dortch:

On February 3, 2011, Sean Belanger, CEO, John Harris, CTO and William Cobb, VP, Marketing, all of CSDVRS, LLC. ("ZVRS") met with Paul de Sa, Chief, Office of Strategic Planning and Policy Analysis.

CSDVRS discussed various methods that could be adopted to further competition and innovation as well as fostering consumer choice. These methods included emphasizing that the contents of an address book were the property of the user of the videophone and that all providers should allow for the easy export of an address book. CSDVRS also submitted that all VRS CPE should be readily available to *all* VRS providers, and that no VRS Provider should manufacture its own CPE. CSDVRS also discussed support for a standards body such as the IETF to guide the industry in setting standards for future VRS CPE. Finally, CSDVRS discussed the continued support of the economies of scale model, and of tiered rates and volumes further to its prior filings.

This letter is being filed for inclusion in the public record of the Commission's docket CG 10-51.

Sincerely Yours,

William Banks
General Counsel

CC: Paul de Sa
