36; CG Docket No. 10-213

Dear Ms. Dortch:

On Wednesday, February 16, 2011, Danielle Coffey, Telecommunications Industry Association (TIA); Rebecca Schwartz, TIA; Brian Scarpelli, TIA; and Douglas Cooper, OneChip Photonics, Inc. met with Josh Gottheimer, Senior Counselor, Office of Chairman Julius Genachowski.

During this meeting, TIA discussed its Innovation Agenda (appended to this notice), a comprehensive framework to increase competition, create jobs, and return the United States to world leadership in innovation. Through light-touch, market-based, and technology neutral approaches to regulation, trade, research and development, tax policy, and education, job growth will occur – both within and outside the ICT sector – due to the criticality of the industry. Consistent with these principles, TIA expressed its support for the Chairman's key goals to unleash spectrum to enable increased access to mobile wireless broadband, reform the Universal Service Fund and Intercarrier Compensation regime, and remove barriers to the accelerated deployment of broadband infrastructure.

Pursuant to Section 1.1206 of the Commission's Rules, 47 C.F.R. § 1.1206, a copy of this submission is being provided to the meeting attendees. Please contact the undersigned with any questions in connection with this filing.

Respectfully submitted,

/s/ Danielle Coffey

Danielle Coffey
