

As a disabled sirius radio listener and stockholder, I think it will be in the best interest for our community to lift the 3 year price freeze that Sirius voluntarily agreed to during the merger with xm radio. There are many different types radio service Sirius is up against including Terrestrial and Internet Radio systems.

I also do not believe it is in our country's best interest for you, The FCC to put controls on Sirius Radio such as possibly removing the 'A LA Carte' option where listeners can choose fewer stations of their own liking for a less price. I do not believe it is fair the way advertising is limited by the FCC when it comes to Sirius.

Also I believe other Radio formats should also have to pay royalties to the musicians.
Thank you.
