Memorandum of Informal Request to:  
FEDERAL COMMUNICATIONS COMMISSION

RE: Applications for License in Exhibit "A" annexed hereto

**SUBJECT: Request FCC notify applicants of no Conditional/Temporary Operating Authority**

Memorandum:

The undersigned submits this request in reliance upon Section 1.41 (47 CFR 1.41) of the Commission's rules and regulations governing informal requests. This request operates against the Conditional/Temporary Operating Authority, if any exists, of any applicant submitting a license application for a public safety radio station ("PW" radio code) in the frequency range of 430-448 MHz at any time between June 1, 2010 and the date this informal request is submitted.

Due to interference concerns, basic qualification concerns in the applicant subject hereto, the prematurity of applicant's application for license, the permissibility/legality of any 'waiver' instrument upon which the applicant's application for license is premised, and all other matters heretofore or hereafter submitted in objection to the aforesaid application(s) for license in the informal objection raised by undersigned against said application(s), the undersigned protests against conditional/temporary operating authority advising the Commission that applicant(s) is/are ineligible therefor and protesting against any alleged operations premised thereupon.

Undersigned requests Commission formally notify all applicants not to operate prior to their application(s) for license being disposed of by grant, denial, or other terminal action.

Respectfully submitted:

26 FEB 2011

/s./ James Edwin Whedbee  
James Edwin Whedbee, M.Ed.
