## Statement Regarding Compliance with CPNI Regulations

The internal operating procedures and practices of the TWC Covered Entities, as defined in the attached Certification, ensure that the TWC Covered Entities comply with the Commission's rules at 47 C.F.R. § 64.2001, *et. seq.*, governing the use and disclosure of Customer Proprietary Network Information ("CPNI"). The TWC Covered Entities' compliance with the Commission's CPNI rules is demonstrated by the policies, practices, and training procedures detailed below.

In connection with the use of CPNI for marketing purposes in 2010, the TWC Covered Entities did not use CPNI for the purpose of marketing service offerings that are not within the category of service that the TWC Covered Entities provide to customers. The TWC Covered Entities in 2010 did not use CPNI to market service offerings among the same categories of service to which the customer already subscribes. TWC Covered Entities have established a supervisory review and approval process that calls for records of such offerings to be maintained for a minimum of one year.

The TWC Covered Entities release or disclose customer CPNI to third parties only with the customer's written consent, except: (i) as required by law in response to a request made pursuant to a valid court order, warrant or appropriate notice from a government agency, or (ii) for the express limited purpose of initiating, rendering, billing and/or collecting for services rendered by the TWC Covered Entities, pursuant to a written and binding agreement that contains restrictions regarding the confidentiality and safeguarding of customer information.

The customer service representatives of the TWC Covered Entities do not discuss or disclose customers' call detail records on customer initiated telephone calls, except the limited discussion of call detail records after the customer first—without the customer service representative's assistance—identifies and provides specific information about the particular call to be discussed, including the call date, call time, and telephone number called. The TWC Covered Entities accordingly have not established account passwords for telephone access to call detail records. When a customer requests call detail records during a customer initiated telephone call, the TWC Covered Entities provide that information by directing the customer to the TWC Covered Entities' secure online Web portal and/or by mailing the call detail records to the customer's address of record.

The TWC Covered Entities do not provide any access to customers' CPNI or call detail records via an online web portal until the customer requesting such information provides a password that has been established by the customer after that customer has been authenticated through a method that does not include the use of readily available biographical information. The TWC Covered Entities notify customers immediately whenever a customer's password, means of authentication, online account or address associated with the account is created or changed.

The TWC Covered Entities do not provide customers with access to CPNI at retail locations unless the customer has presented a valid, government issued photo identification matching the customer's account information.

The TWC Covered Entities provide CPNI to business customers only as described above or, for business customers who have been assigned a dedicated account representative, pursuant to contractual provisions that specifically address the protection of CPNI.

The TWC Covered Entities also employ several internal operating processes and procedures to ensure compliance with the Commission's CPNI regulations. The TWC Covered Entities require that all relevant personnel are informed of and follow company-approved procedures for authenticating customers before disclosing CPNI. The TWC Covered Entities administer an employee disciplinary program to ensure compliance with internal procedures. This program includes penalties for the violation of internal privacy protection procedures, including the potential termination of employees, when appropriate. The TWC Covered Entities have standardized processes for tracking and resolving customer complaints that relate to unauthorized access to CPNI and for identifying, responding to, documenting and, as appropriate, notifying law enforcement and customers of any breaches of customer CPNI. In addition, the TWC Covered Entities have made publicly available materials that inform customers about CPNI protections and the TWC Covered Entities' authentication and protection practices.
