Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

I want to say my bills are never over \$100, but when I have been charged for things I didn't expect, T-Mobile has always been able to correct the problem and I've never had to pay them. So while I support these changes, I also want to add there is one company which never makes this customer feel it's my fault.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Alot of bogus charges come about from accidentally pushing the internet button on your cell phone. Thankfully my son-in-law closed this out on my phone. He blocked everything on my phone that would connect me to the internet as I don't use this on my phone. Thank God for Tim!

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Every month I get hit with text msg charges (.20 each) that I have no idea who these came from. My supplier (AT&T) said they were sorry but there is nothing they can do about it.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

At&t charged me a fee each month for text msgs that I did not send. It came to about \$6 a month, consider how much they get from all their customers. I had to block text msg to stop them. Nothing but a bunch of fing crooks!!!!

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

I am always disappointed on how consumer friendly and easy it is to figure out the details with a mobile phone in Europe compared the the US.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

what about AT&T Wireless Cell Phone. Would you please check for strange charge over the cell phone bills???

I think the wireless services should be shame of themself. We have to fight for our rights.

Thanks for looking after them!

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

I've been paying mystery charges for years until I now call them monthly & demand they be taken off!!

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.
