It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

I unwanted unsolicited received photos and text messages from unknown sources. Verizon said that I had to wait until I got my bill, figure out the portion due to those, and ask for consideration of a refund.

I asked if I could block unwanted messages (e.g,with a code that my contacts could use to access my phone).

The response was NO. I would have to block ALL text messages.

That didn't seem fair or customer friendly.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

I have a law degree and an MBA, and I find my monthly cell phone bill from Verizon to be one of the most obtuse writings I've ever seen! Please require cellular providers to clearly identify charges and to give consumers a heads-up on overages. Thank you very much.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

I have two, count them, Verizon phones and feel that I have been a long time victim of the royal gouge. I hope this helps.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.

Subject : I want notice BEFORE I hit my cellular usage limits!

Federal Communication Commission

Greetings,,

Cell phone companies should absolutely notify me before I go over my limits on voice, data or text service. That way I can finally get control over my bills and permanently avoid bill shock.

This is a simple solution that puts me in control.

I've gotten bills for hundreds of dollars, spent hours on the phone with customer service, and I never end up satisfied.

It seems that the problem was always my fault. I've been told I didn't understand my plan limits, didn't understand my parental controls, didn't understand the charges associated with a download or an online service. But most of all, I just didn't know when I ran out of minutes.

I'm tired of bill shock, and ready for some real control.
