CC Docket No. 02-33

April 1, 2011

Clear Lake Telephone Company (CLTEL) hereby provides notice that it intends to cease offering wireline broadband Internet access service on a tariffed basis. Effective July 1, 2011 CLTEL will begin offering wireline broadband Internet access service on a Title II, common carriage, permissive detariffed basis pursuant to paragraph 94 of the Federal Communications Commission's Wireline Broadband Order.¹ The geographic areas affected are those CLTEL exchanges where DSL is technically feasible.

Today, this service is provided to CLT Communications, LLC. (CLTC) This ISP purchases wireline broadband access service for use as a component in their broadband Internet service sold to residential and business consumers. End user service provided by CLTC will not be affected by discontinuance of the tariffed offering by CLTEL. As stated in the attached customer notice, CLTEL will continue to offer services to existing ISP customers under current rates, terms and conditions until the end of the current term or upon replacement with a Broadband Commercial Agreement. A Broadband Commercial Agreement will be made available in a nondiscriminatory manner to any provider desiring to purchase wireline broadband access service for use as a component in its broadband Internet service sold to consumers.

Effective July 1, 2011, CLTEL will make its wireline broadband Internet access service on a permissive detariffed, common carriage basis through posting of rates, terms and conditions available in printed copy during normal business hours at CLTEL's business office located at 316 Third Ave, Clear Lake, WI 54005.
