Planned Network Change(s) Will Occur at the Following Maryland Location(s):

<u>Location</u>	<u>Verizon Central Office (or Other) CLLI Code</u>
Edmondson Avenue	BLTMMDEDCG0

Description of the Planned Network Change(s):

The Verizon Edmondson 1A ESS end office switch (BLTMMDEDCG0), located at 2837 Edmondson Avenue, Baltimore, MD 21223, will be retired and removed after all traffic served by this switch is migrated to the alternative switch described below. Traffic currently coming to Edmondson will be migrated to the Annapolis CS 2000 (ANNPMDANPS0) located at 9 Northwest Street, Annapolis, MD 21401. All traffic will be migrated to the Annapolis switch, including Inter-LATA (ACCESS/FG-B-D/CLEC IXC), Wireless, and Paging trunks.

Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):

CLEC IXC, IEC, wireless and paging carriers will need to secure new trunk groups built to the Annapolis PSO Call Server 2000 or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity

in the Edmondson switch will be required to reposition the codes to the Annapolis switch.

All ASRs for the Annapolis Switch must be received no later than August 1, 2011 in order to provide sufficient time to migrate the traffic described above. All traffic must be moved by October 1, 2011. All ASRs for the Edmondson switch must carry the project code of BLTMMDEDRP0.
