Licensee Contact for this Request

Table with contact information for David Kaufman, Counsel, 1140 19th St. NW, Washington, DC 20036, (202) 955-5516, dkaufman@rinicoran.com

I hereby request to relocate the channels for the call signs and locations listed above to the Guard Band. I acknowledge that relocating to the Guard Band would require me to tolerate higher levels of interference from cellular-architecture systems as a function of proximity of my new channel(s) to the ESMR Band (817-824/862-869 MHz) than if I relocated to the Interleaved Band (809-815/854-860 MHz). I also acknowledge that in the event licensee requests for Guard Band frequencies exceed the available spectrum capacity in any location requested, the TA may not be able to accommodate my request to move to the Guard Band.
