

I've received threatening/harassing phone calls on my job as well as my cell phone on a continuous and daily basis. These people have my name, address, phone number (work/cell) and my social security number. I do not know who they are or even the extent of their phone call. These people have heavy accents stating my SS# has been used and fraud have been committed. Sounds like Identity Theft. What should I do? I receive the call showing the # as (251) 279-9987 leaving messages to call the following ph#'s (609) 310-6583; (202) 239-6009; (520) 843-0103 and several other out of state numbers pertaining to the same messages being left. The individuals identify themselves as: Neil Wilson, Steve Harris, Julie, from American Law Firm. Does anyone know or have any information concerning this matter. I've also filed with FTC.
