## **1. Project Contact and Coordination Information**

### Project Leaders

Eric Brown, MBA  
Executive Director  
California Telehealth Network  
University of California, Office of the President  
California Telehealth Network, Project Coordinator

David J. Harry, Ph.D.  
Director of Technology  
Center for Health and Technology  
UC Davis Health System  
California Telehealth Network, Associate Project Coordinator  
Phone #: 916-734-3008  
FAX #: 916-734-3580  
Email: David.harry@ucdmc.ucdavis.edu

### Responsible Administrative Official

Eric Brown, MBA  
Executive Director  
California Telehealth Network  
University of California, Office of the President  
California Telehealth Network, Project Coordinator

Address:  
California Telehealth Network  
c/o Center for Health and Technology  
2300 Stockton Blvd., Suite 3900  
Sacramento, CA 95817

Phone #: 916-734-5675  
FAX #: 916-734-3580  
Email: eric.brown@ucdmc.ucdavis.edu

### Responsible Organization

Regents of the University of California  
University of California, Office of the President  
1111 Franklin St.  
Oakland, CA 94607  
<http://www.caltelehealth.org>  
<http://www.ucop.edu>

## Statewide Coordination

The California Telehealth Network (CTN) project is being managed at the highest level, through the Office of the President of the University of California (UC). Operational responsibility has been delegated to the following entity within the University:

Center for Health and Technology  
University of California Davis Health System  
2300 Stockton Blvd, Suite 3900  
Sacramento, CA 95817

CTN operational management also receives guidance and operational support from the large group of CTN Consortium Member organizations. The CTN Consortium was originally formed in order to coordinate and consolidate multiple independent Rural Health Care Pilot Program (RHCPP) proposal initiatives, with the aim of submitting a single proposal that represented the interests of the State of California. The Consortium was formed specifically at the direction of the Governor's Office. Please see the list of CTN Consortium Member organizations provided in previous quarterly reports. The CTN Consortium advises and informs CTN project management through the CTN Advisory Committee, whose members represent rural health care providers, state government organizations, as well as non-profit health care funding organizations. Statewide coordination of the CTN project is greatly facilitated by the willing investment of time, resources and expertise provided by the CTN Consortium members.

Operational coordination of the statewide project is currently the joint responsibility of the Center for Health and Technology (CHT) at UC Davis, and AT&T who serves as the Prime Contractor for technical implementation and maintenance of the project. The CHT provides the coordination and communications infrastructure to manage the various processes necessary to prepare the prospective CTN Participant sites for enrollment in the project. CHT ensures that physical facilities are adequate and that all necessary participation agreements have been executed. CHT also manages all financial processes, including review and approval of vendor invoices, as well as collection of monthly participation fees from CTN Participants.

As described in more detail in the following section, CTN has selected AT&T who has the requisite resources, experience and available statewide communications infrastructure to coordinate, implement and manage the technical facets of this complex project. To date, four (4) 466-As have been filed and four (4) Funding Commitment Letters (FCL) secured. Additional 466-A and 465 filings are planned for the near future.

## **2. Identify All Health Care Facilities Included in the Network**

From the outset, the CTN initiated numerous statewide communications activities aimed at enrolling prospective CTN participants. Close to 1000 health care facilities signified their intention to participate by submitting a Letter of Agency with 863 of those sites confirmed eligible through the CTN Form 465 filing, dated July 3, 2009. A complete listing of eligible Participant Sites is available at the USAC RHCPP Web Site, under the California Telehealth

Network entry. The CTN received Letters of Agency from 12 organizations who are interested in participating in the CTN. These organizations represent several sites that will be put forth for eligibility determination. These sites will be submitted in a site substitution filing within the next several weeks. In addition to the data on the posting shown below, CTN is including in this report, the Census Tract and RUCA codes associated to the filing. Please see attachment 1 of this report.

<http://www.usac.org/rhc-pilot-program/tools/search-postings-2009.aspx#CA>.

### **3. Network Narrative**

The request for proposals (RFP) for CTN network services (CTN RFP #2009-02) provided detailed specifications and requirements for performance, reliability, security and quality of services, as well as detailed requirements for managed services to be provided by the Contractor(s).

#### Form 466A Filing Status

CTN continues to work with AT&T on a complete invoice for CTN bundles. 466A filings were submitted before the total amount of administrative and utility tax fees were accounted for. CTN will work with USAC to rescind the original filings and correct them appropriately when a complete invoice is provided by AT&T and the administrative and utility tax fees are known.

In October, 2010 the CTN identified the need for a firewall traversal solution to support real-time telemedicine videoconferencing. CTN worked closely with USAC to provide an RFP for this equipment so that it could be competitively bid and reimbursed under the USAC guidelines. CTN has completed vendor presentations to technical and senior management staff; review and scoring of the RFP's received was complete as of January 24, 2011. The RFP was awarded to BT Conferencing; CTN is still working to complete the final steps for USAC approval of the funding request.

Form 467 was filed with USAC and the FCC for funding request number (FRN) #47728.

An FCL was received on January 27, 2011 for the subscription to Internet2. Physical connection to Internet 2 is being provided by Internet 2's California Regional Optical Network (RON) partner, CENIC (Corporation for Educational Network Initiatives in California). Requests for RHCPP subsidy for the equipment and services that comprise the physical "peering" between CTN and CENIC were submitted in earlier 466A filings. Consequently, the January 27, 2011 filing only covered that remaining Internet 2 annual subscription cost. In the near future, CTN will submit an additional 466A to support the establishment of a second, REDUNDANT PEERING POINT, located in Sacramento California. This will be essential in providing for redundancy and reliability, essential for the support of critical health care activities.

The CTN is grateful to USAC for their continued time and effort in assisting the CTN with these filings and program guidance.

#### **4. List of Connected Health Care Providers**

CTN completed its connection of the CTN backbone network to CENIC on March 23, 2011. This was a major milestone for the CTN. A total of 27 sites are currently connected to the CTN backbone, and as a result of the CENIC connection, all University of California sites are also now connected to the CTN. A list of connected sites is shown in attachment 2 of this report.

Please see attachment 3 and 4 for network diagrams. These diagrams illustrate respectively: 1) the overall network architecture of the CTN backbone network, showing how individual sites are connected into the CTN “Cloud”, which provides HIPAA-compliant secure interconnection among all participating sites; 2) detailed illustration of the CTN-CENIC peering point in Los Angeles, that incorporates a sophisticated phalanx of network security equipment and software, termed a “DMZ (demilitarized zone), that monitors all traffic to/from the CTN and filters out malicious traffic. The CTN-CENIC peering point needs to be replicated in Northern California in order to provide redundancy and additional network performance. The second peering point will be the subject of an additional 466A filing in the very near future.

#### **5. Identify the Following Non-recurring and Recurring Costs**

CTN is currently working with AT&T to receive a comprehensive invoice for connectivity costs for CTN bundle offerings. Once the AT&T invoice details have been worked through, CTN will be able to submit accurate data to reflect the actual costs of each bundle.

CTN is preparing to submit its first allowable expense for the Internet 2 connectivity. Corresponding USAC and internal UC paperwork is being completed in order to process this expense.

#### **6. Describe how Costs have been Apportioned and the Sources of the Funds to Pay Them**

CTN will start invoicing next month against the Internet2 funding request number (FRN) # 50254. Eighty-five percent (85%) of this subscription fee is reimbursable; the remaining 15% will be reimbursed using matching funds from the California Emerging Technologies Fund (CETF).

##### Sources of Funding in Addition to RHCPP Award

CTN continues to recruit fair share sites for participation in the network. Several negotiations are currently taking place with multi-clinic organizations.

## 7. Identify any Technical or Non-technical Requirements or Procedures Necessary for Ineligible Entities to Connect to the Participant’s Network

CTN discussions continue with various for-profit and other ineligible health care facilities, in an effort to establish guidelines and standards for accommodating their participation. As a result, a draft financial Proforma created to itemize membership costs continues to be modified. Interested parties received the Share-of-Cost Membership Agreement provided to USAC in the January 2011 quarterly report. Several parties have expressed interest, however, at this time executed agreements remain pending.

## 8. Provide an update on the project leadership, management structure and plan

### a. Current Leadership and Management Structure

The CTN staff continues to work with its existing members to obtain a transfer of agency letter from UC Davis to the CTN 501 (c)3 entity. Of the initial 126 sites with membership agreements, 109 transfer of agency letters have been executed, two (2) are in process, 14 sites received state funding to build their own fiber network interconnecting those 14 sites, one (1) site decided not to participate in the USAC subsidy. This leaves 3 sites outstanding. Of these, 2 Indian Health Services (IHS) sites are awaiting approval from IHS to participate. CTN staff met with IHS officials in Sacramento in January, IHS has indicated support for IHS site participation but has yet to formally authorize participation. The remaining site has not yet responded to requests to complete the Transfer LOA. Once all transfer of agency letters have been received they will be forwarded to USAC, as requested.

As mentioned in the October 2010 report, the CTN and The California Health Foundation Trust agreed to formalize a collaboration between the California Telemedicine and eHealth Center (CTEC) and the CTN in September, 2010. Through this merger the CTN will leverage existing Telemedicine programmatic training resources through CTEC. The two groups continue to work out the specific details of this merger with the appropriate funding agencies.

In January 2011, CTN launched a new website (see [www.caltelehealth.org](http://www.caltelehealth.org)). The website has added new features, such as updates for members on the home page, an automated online form for customer questions or feedback, and a member benefits section, to name a few. The CTN plans to leverage this tool for member communication and further enhance the site based on member feedback and needs.

President and CEO of the CTN, Eric Brown, continues to reach out to various organizations and groups to promote connectivity and use of the CTN. Some of his activities during this quarter are listed below.

Name of Activity	Location	Description of Activity	Number of Participants
The Children’s Partnership	Santa Monica, CA	01/04/2011 - Meeting to discuss the potential for school-based health centers to get connected to CTN and what services will be delivered over the network	4

California Rural Indian Health Board	Sacramento, CA	01/05/2011 – Meeting to discuss CTN update and update on the BTOP grant progress to most meaningfully involve CRHIB	4
Children’s Hospital and Research Center - Oakland	Oakland, CA	01/06/2011 – CTN program update	2
California Telemedicine & eHealth Center	Los Angeles, CA	01/11/2011 – CTN Briefing and workshop on finding and getting more grants for telehealth projects	30
Tarzana Treatment Center	Tarzana, CA	01/14/2011 – “mock” due diligence visit and CTN briefing	4
Winter Health IT Summit	Phoenix, AZ	01/19 /2011 to 01/20/2011 -	100
Capitol Desk	Sacramento, CA	01/24/2011- interview to discuss IT implementation across the state and the CTN	2
HITEC LA – The California Endowment Center	Los Angeles, CA	01/25/2011 – meeting to welcome Dr. Mitch Katz, Hospital Association of Southern California, Los Angeles County Medical Association and UniHealth Foundation	100
SARTA MedStart Taskforce	Sacramento, CA	01/27/2011 – Presentation regarding Model Communities grant	100
San Francisco Community Clinic Consortium	San Francisco, CA	01/28/2011 – CTN Briefing	4
CMHDA IT Committee Member Meeting	Sacramento, CA	02/02/2011 – Meeting at the California Mental Health Directors Association with the California Department of Mental Health, Alcohol and Drug Problems Department, CA DHCS Medical office as well as other representatives from counties around the state	20
California Public Utilities – California Teleconnect Fund	San Francisco, CA	02/07/2011 – CTN Briefing	6
San Diego Council of Community Clinics	San Diego, CA	02/10/2011 – Meeting to solicit CTN participation	3
University of California San Diego	San Diego, CA	02/10/2011 – Meeting with the Telemedicine Department to provide CTN briefing and solicit participation	4
Catholic Healthcare West Meeting	San Francisco, CA	02/15/2011 – Briefing with COO to encourage CTN participation	2
CITRIS	Berkeley, CA	02/15/2011 – CITRIS distinguished speaker event and agreement with CITRIS to develop technology enabled eHealth applications for the CTN	30
Booz Allen Hamilton	Sacramento, CA	02/17/2011 - videoconference to discuss some of the innovations, accomplishments, challenges, and needs that exist in taking telehealth from a great regional tool to one that is used to eliminate health disparities and improve minority health throughout the country	20
NITA Partner Workshop	Berkeley, CA	02/18/2011 – workshop on collaboration with other NTIA grantees	40
UC Davis/ CTN	Sacramento,	02/22/2011 – RFP Informational Webinar	64

	CA		
Southland Development Corporation	Bellflower, CA	02/24/2011 – Meeting to discuss model communities opportunity and solicit CTN participation from area sites	4
UC Davis/ CTN	Sacramento, CA	02/28/2011 – RFP Informational Webinar	95
Eastern Plumas	Portola, CA	03/01/2011 – Meeting to discuss model communities opportunity and encourage CTN participation	2
Statewide eHealth Coordinating Committee Meeting	Sacramento, CA	03/02/2011 – CTN Program Update	40
Planned Parenthood CFO and Patient Services Meeting	Sacramento, CA	03/04/2011 – Presentation to the Chief Financial Officers, VP of Patient Services with Planned Parenthood as well as CFOs and VPs of Patient Services that represent our eight affiliates that cover the state. Combined the eight affiliates have more than 150 clinic sites (including satellite sites).	50
CalHipso Data Analytics Committee Meeting	Oakland, CA	03/11/2011 - Committee meeting	12
Kaiser Permanente meeting	Stockton, CA	03/11/2011 – Briefing with Central Valley KP team to encourage CTN participation	4
Los Angeles County Department of Health	Los Angeles, CA	03/14/2011 – Meeting to discuss potential CTN participation	4
CREE Advanced Communications Roundtable	Sonoma, CA	03/18/2011 – Roundtable discussion with telecommunications, Economic Development and, Energy leaders from around the State which included CTN briefing	60
California emerging Technology Fund Policymaker’s Roundtable	Sacramento, CA	03/18/2011 – Presentation on CTN’s perspective in closing the Digital Divide in regard to health to CETF partners and grantees, interested stakeholders, technology reporters and media.	40
Kaiser Permanente Executive Leadership Meeting	Oakland, CA	03/21/2011 – CTN briefing presentation to solicit CTN participation	6
Polycom Telemedicine Solutions Seminar	Santa Clara, CA	03/22/2011 – CTN briefing presentation	25
The Broadband Group	Las Vegas, NV	03/25/2011 – Meeting to discuss an interconnect with Nevada based health care sites	3
Indian Health Services	Sacramento, CA	03/28/2011 – Discussion exploring options for interconnecting IHS sites with the CTN discussion	4
	<b>Total:</b>	<b>33 meetings</b>	<b>888 participants</b>

b. Project Plan and Schedule

In March the CTN-CENIC peering infrastructure was completed. Through establishment of a physical connection point (peering point) between the CTN backbone and the statewide CENIC network, CTN participants will be afforded direct access to all educational and research

institutions comprising CENIC, access to national research and educational networks (i.e., Internet 2 and National LambdaRail), as well as access to the Public Internet. Work was recently completed to construct and instrument the physical peering point at one of CENIC's major network Points of Presence (POP) in Los Angeles, California. Additional equipment and software are planned to be installed at the peering point that enhance videoconferencing (telemedicine) support

A 466A filing will be submitted in the very near future that requests an FCL for the requisite equipment and software.

The following is an updated approximate schedule of events. Please note that all dates listed are estimates and are subject to change.

#### Schedule of Events

<b>Event</b>	<b>Date</b>
Review and Score CTN Business Plan Consultant Proposals	Complete
Completion of Proposal CTN Business Plan Evaluation Process	Complete
CTN Business Plan Award Announcement	Complete
Initiation of CTN Business Plan Vendor Contract Negotiations	Complete
CTN Business Plan Vendor Contract Signing	April 2011
Initial Form 466A Submission	Complete
Completion of Second and Third 466A Submission	Complete
Collect signed Membership Agreements from CTN Participants	Ongoing
Technical Site Readiness Calls for First 50 Sites	Complete
Distribution of Site Readiness Questionnaires to Additional Sites	Ongoing
Legal Review of Share-of-Cost Membership Agreement	Complete
Begin Construction of CTN-CENIC Peering Infrastructure	Complete
Implementation of Internet Connectivity	Complete
Submission of Fourth 466A Filing	Complete
Submission of 465 Filing for additional sites	May 2011
Orders placed with AT&T	Ongoing - 98 submitted as of 04/20/11

#### **9. Provide Detail on Whether Network is or Will Become Self-Sustaining**

CTN has had discussions with numerous municipal, county government agencies, as well as for-profit healthcare providers, in an effort to develop a self-sustainability model. A revised version of the CTN Sustainability Plan was included as Appendix B in the Quarterly Report dated April 30, 2010. The "Sustainability Forecast Worksheet" (Attachment A of the sustainability plan) was revised to reflect sustainability projections for a ten year period. The plan provides a comprehensive articulation of various strategies that CTN will employ to develop financial sustainability. These include: 1) Member subscription fees; 2) Access fees from commercial interests; 3) federal/state subsidy programs; 4) donations from non-profit healthcare funding organizations; 5) access and subscription fees from non-healthcare entities for use of network

connectivity. Please refer to the April 30, 2010 Quarterly Report for more details on the Sustainability Plan.

In response to increased Share-of-Cost membership inquiries, a new membership agreement for potential fair-share members was developed and was provided as an attachment in the January 2011 quarterly report.

## **10. Provide Detail on How the Supported Network has Advanced Telemedicine Benefits**

No benefits directly attributable to the CTN have yet been derived, however, through the CTN's collaboration with CTEC and through the NTIA Sustainable Broadband Adoption grant, telemedicine related training will be available to CTN members in preparation for use of such services over the network.

## **11. Provide Detail on How the Supported Network has Complied with HHS Health IT Initiatives**

- a. Interoperability Standards: the network has been designed as an "open network", complying with industry-standard protocols.
- b. The network has not deployed any applications to date. CTN intends to adhere to the Certification Commission for Healthcare Information Technology (CCHIT) standards in selecting and implementing applications.
- c. CTN has recently completed construction of an interconnection (peering point) with the CENIC statewide educational and research network in Los Angeles California. Through the peering point, CTN participants are now able to directly connect to all sites available on the two national research and educational networks: 1) Internet2 and 2) National LambdaRail.
- d. To date, the network has not yet used resources from the Agency for Healthcare Research and Quality (AHRQ) National Resource Center for Health Information Technology.
- e. University of California Davis Health System (UCDHS), the operational lead organization for the CTN, is actively involved in bioterrorism and pandemic response activities. Several members of the UCDHS Center for Health and Technology (CHT) are actively involved in this work and will be advised to coordinate the CTN-related activities with Department of Health and Human Services (HHS) Secretary for Public Response.
- f. UCDHS CHT will participate with CTN management to facilitate interoperability with public health and emergency organizations. CHT completed work through a \$5 million grant from HHS to develop Emergency Department Surge Capacity coordination. Part of this work involved developing collaborative and cooperative agreements among local, county and regional emergency response agencies and public health organizations. Efforts were made to coordinate the integration of additional sites for the HHS project in such a fashion that there was maximal overlap between HHS and CTN sites. The long-term goal is to position the CTN to become a core component of region and statewide efforts to develop emergency response and disaster preparedness programs and

infrastructure. CHT and CTN management will expand the coordination efforts to include HHS and CDC interoperability requirements, as the network is actively deployed.

- g. CTN is coordinating with the University of California Proposition 1D/PRIME rural outreach initiatives. This program is funded through a \$200 million bond initiative approved by the voters to enhance training of medical students who express interest in practicing in rural areas. A portion of the funds (\$10 million) will be used to provide telemedicine equipment to rural health care sites, in order to facilitate telemedicine use. Due to significant budgetary challenges, the equipment distribution initiative was suspended for a period of time during late 2009. The state recently released additional funding for the 1D/PRIME initiative and equipment orders have been placed. UCDHS began deployment of community investment equipment to rural sites in March, 2011. As a result, more sites across California will participate in telehealth activities, including those with connectivity through the CTN.

## **12. Explain How the Selected Participants Coordinated in the Use of Their Health Care Networks**

CTN will implement ongoing efforts to comply with HHS programs to provide access to network services during national, regional or local public health emergencies. CTN has initial plans to facilitate access through three means:

1. UCDHS received a \$5 million grant from HHS as part of their Emergency Department Surge program to develop effective health care coordination capabilities in the event of public health emergencies. UCDHS selected rural health care facilities that will co-participate in both programs. In this fashion, the capabilities of CTN to support coordination of geographically distributed health care resources on a regional basis will be developed.
2. CTN is connected to both National Lambda Rail and to Internet 2 national networks. Through these connections, HHS will have unrestricted access to the CTN network, thereby providing integration at a national level.
3. CTN is connected to the National Lambda Rail Regional Optical Network (RON) provider for California, the Corporation for Education Network Initiatives in California (CENIC). CENIC provides direct connectivity to every University of California campus and medical center, as well as most major academic medical centers within the state (e.g., Stanford Medical Center and University of Southern California Medical Center). This connectivity will provide a means of broadly coordinating access to every major academic medical network within the state.

In addition, discussions continue on how the CTN might coordinate efforts with other RHCPP networks to develop benefits for participants across state boundaries. The CTN Leadership Team communicates regularly with the Oregon Health Network, the Colorado Telehealth Network and the Southwest Telehealth Access Grid in New Mexico to identify opportunities to partner. The CTN is in active discussions with the Oregon Health Network (OHN) to explore interconnection arrangements that would allow sites from each organization to communicate

with each other. OHN is currently working with USAC for approval of this connection. Pending FCC approval of a requested one year extension for filings associated with the RHCPP, CTN and OHN plan to continue intensive technical discussions, with the goal of establishing a peering point between the two networks in Fall, 2011.

Router	Circuit/Router Type
<b>Cisco 1841</b>	1.5 Mbps - Managed Router (AT&T Owned) – Small
<b>Cisco 3845</b>	6.0 & 10.0 Mbps Managed Router (AT&T Owned) – Medium
<b>Cisco 7206</b>	45.0 Mbps Managed Router (AT&T Owned) – Large

\* University of California sites are using existing equipment

**CENIC / Internet 2 / NLR Peering Point(s)**

**Managed Firewall and Managed Intrusion Prevention Services -IPS**

Installed, managed and maintained Cisco ASA 5540/ SSM 40 F/W and IPS/ IDS Monitors/protects networking infrastructure from internal and external sources. When pattern of misuse detected, the system automatically responds according to the client's predefined policies. Includes level 3 service with live analyst to interpret data

**Managed AV Scanner**

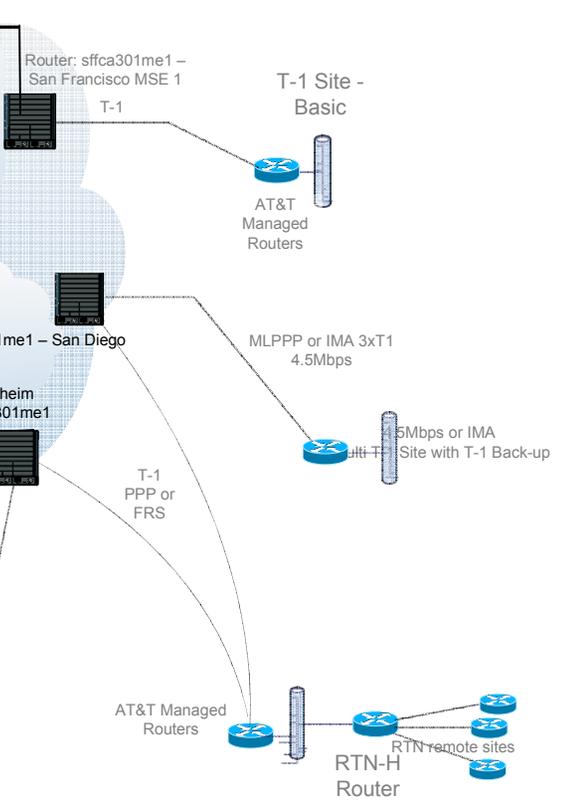

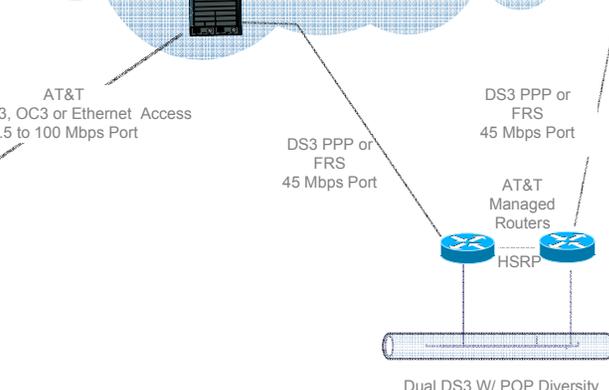

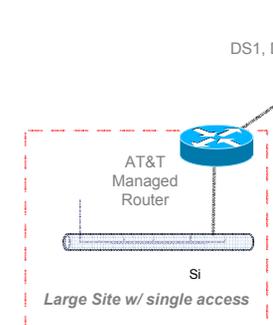

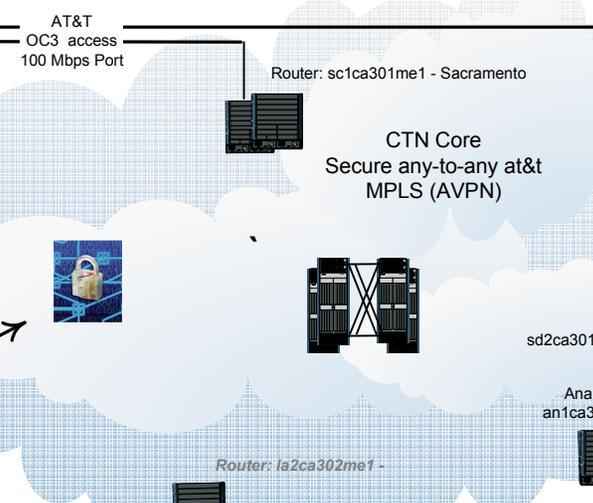

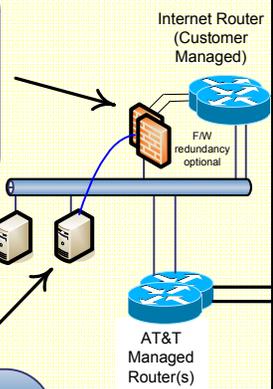

Tied to BC for AV

**Managed Web Security Appliance**

BlueCoat Internet Content Filtering Malware and virus blocking ATT Managed router runs WCCP to BC for http traffic, passes other traffic

**Private Internet Protect (Optional)**

Network Based IDS advanced information regarding potential real-time attacks (viruses, worms, & DDoS) .

Note: RTN hub may be bypassed with direct managed connections to each RTN site

**Legend**

**CNT-C Applications:**  
Telemedicine consultation, distance education, patient monitoring

## Option 2: Parallel Proxy
