

I would like to voice my strong disapproval of AT&T's proposed takeover of T-Mobile. I believe this transaction does not serve the public good. Specifically, I am concerned that this takeover will result in higher prices to the consumer, reduced innovation, and stifled competition. In addition, If AT&T is allowed to purchase T-Mobile there will only be one GSM wireless carrier in the U.S. if this occurs, where is the competition that will drive improved network coverage, more advanced handsets, and better pricing plans? The AT&T / Verizon duopoly created by this transaction is not in the best interest of consumers. I urge you to deny this takeover. Thank you.
