

This merger should be denied by the FCC. I have worked in the wireless industry for 12 years and this merger will destroy jobs and limit the choices people have when it comes to wireless communications. Please deny this merger and continue to allow the public to have more choices when it comes to which wireless service they choose to use. AT&T has already purchased and taken over Bell South (Cingular Wireless). To continue to allow AT&T to buy other wireless companies is ludicrous. This is not good for competition especially in a market where there is already only four major wireless carriers to choose from.
