Washington, DC 20554

Subject: Request for Waiver of 471 Deadline, CC Docket 02-6

Ms. Dortch,

As Director of Purchasing and Transportation for the Rockwood School District, I am requesting a 471 deadline waiver based upon the following:

The Rockwood School District (BEN 136875) has filed a 470, 471, and 486 documents for the Wide Area Network services received from Charter Communications each year since 2007. The original 470 application was 578280000627932. This was a 5 year contract with Charter as noted on the original application terminating on 6/30/2013. A filing for FY2011 was not completed in part due to a retirement of the technology person in charge of Internet services and network communications during the filing window and a failure to ensure all forms were processed as required. A paper copy of the 471 will be submitted to USAC as on-line filing is no longer available.

Other 471's were filed for Long Distance, Plexar, T1, and Mobile Cell Service. On behalf of the Rockwood School District, I am requesting a waiver of deadline in order to file a 471 form for the Wide Area Network services contracted with Charter Communications for Funding year 2011.

Sincerely,

A handwritten signature in black ink, appearing to read "William M. Sloan".

William M. Sloan
Director – Purchasing & Transportation
