

The fact that this merger is even being considered is ridiculous. Right now we only have 2 domestic cell phone services with GSM technology. AT&T and T-Mobile. Letting them merge creates a monopoly. Not to mention AT&T has horrible customer service. IF this merger goes thru the only two real national providers will be AT&T and Verizon. Sprint doesnt have enough market share or coverage areas to be considered a real national provider. Read the countless forums online. Public opinion is strongly against this merger. DONT LET IT HAPPEN!!!!
