

Hello,

I have been a loyal customer of T-mobile for 7 great years.

Why this buyout should not take place.

1.If there are T-Mobile stores on the same block as AT&A these stores will be close. This will be bad for retailer and consumers.

2.AT&T main cash cow is the iPhone. T-Mobile main phone is Google. Had this merger taken place in 2008 consumer would not have the androids we have today.

3. GSM. A combined network would make it really hard for consumers. We would all be LOCKED into the same with no choice.

Thank you for allowing me to voice my concerns
