

Hello, I am a T-mobile customer and I am very very happy with my service. I have choice!! I have a \$500 dollar Samsung phone without any 3G service. I can pick and choose the services that I want on my account. I am not forced to buy 3G data plan unlike an iPhone on AT&T. You MUST get the data plan.

I am sorry that T-mobile is losing customers. They have the best prices and even the best android phones (Nexus S and Vibrant 4G). T-mobile should shrink and not support too many markets if they are having financial problems.

thanks,

-John
