

Please make local, community-based networks eligible for Connect America Fund support! To limit the funding to large corporation is undemocratic. It would further the chasm between large, wealthy corporations and more agile American enterprise, removing control of communications further from citizens. To only fund large corporations would surely suggest you folks are bought & paid for by AT&T, Verizon, etc. ie., whores. Please, we would all like to respect you in the morning. Sincerely,
Brooks Townes
