

Please do not approve this, AT&T merger with Cingular already decreased competition, this will only further the problem. AT&T is already a large enough company and should be broken down instead of being allowed to absorb other companies.

AT&T claims T-Mobile customers can keep their contracts and prices won't be increased, but when my family used AT&T when they merged and Cingular contracts took over, any changes we wanted to make to our service required us to get a new contract. The contract change increased text messaging rates, forced us to get a contract with more minutes than we'd ever used, we had to pay for a rollover contract. They're going to pull the same tricks and prices will go up for AT&T, T-Mobile, and eventually other carriers because of the lack of competition.

Please, don't allow this.
