Re: GN Docket 11-65

Honorable Chairman Genachowski and Honorable Commissioners:

The Black Business Association of Memphis (BBA) takes this opportunity to file comments in support of the acquisition of T-Mobile USA by AT&T. We firmly believe that if and when the acquisition is approved, this transaction will provide the clearest and most direct path to successfully bridging the, "Digital Divide."

Further, this transaction will effectively place America in the digital position of being a full opportunity nation because all Americans will be on equal footing with regard to service availability. This will have a positive impact on American citizens personally and professionally.

We thank you for your consideration on this proceeding. We trust you agree that this is a major step in the right direction for the Great State of Tennessee and for America.

Have a productive day!

Sincerely,

Roby S. Williams  
President, Black Business Association of Memphis
