

I don't know if this is the right department. But I wanted to complain about all the Sex & Cussing on television. Why does the FCC allow all this. The FCC is suppose to regulate this on television. What happened? Even in the morning when children are watching tv there's a lot of Sex & Cussing. I wish this organization (FCC) can bring back the older generation to run this department. Please fix this problem. Not only children, but we adults don't have decent TV to watch anymore. I get sick and tired of almost ever station I turn to there it is, the same thing, sexual acts and cussing. Please, put a stop to this, or tell me who else can I write to regarding this problem.
