CC Docket No. 01-92

Madam Secretary:

In accordance with Section 1.1206 of the Commission's rules, 47 C.F.R. § 1.1206, we hereby provide you with notice of an oral ex parte presentation in connection with the above-captioned proceeding. On June 10, 2011, undersigned counsel, on behalf of United States Cellular Corporation, along with Grant Spellmeyer, spoke telephonically with Steve Rosenberg and Margie Wiener at the Commission to discuss the upcoming Connect America Fund item and related matters.

Commission staff inquired as to the status of U.S. Cellular's progress in producing a cost model that would determine a targeted amount of high-cost support in high-cost rural areas in connection with the Connect America Fund. U.S. Cellular reported that submission of the model for consideration is imminent. U.S. Cellular disclosed that its model will contain assumptions for average revenue per user, and it will include increasing take rates for service. Assumptions have been made for existing network facilities within a relatively unserved area, along with average costs per cell site frequencies used, and cell site radii. U.S. Cellular confirmed that each of these matters will be addressed in its model and that they will be made part of its upcoming presentation.
