June 10, 2011

Dear Chairman Genachowski and Commissioners:

On behalf of the 100 Black Men of North Metro, Inc., I ask you to support the merger of AT&T and T-Mobile USA before the Commission in its 11-65 docket.

As leaders of a nonprofit organization, we are direct witnesses to the impact that our economy has had on our members. The 100 Black Men of North Metro, Inc. believes that the increased access to wireless broadband that would result from this merger would bring investment and create jobs in Georgia and benefit the people we serve in Cobb, Gwinnett and North Fulton counties.

I personally have a technical background and understand the benefits of technology advancements to our future. Technology has changed the way we connect to our friends and family and how businesses connect to consumers. The Internet has given our children increased opportunities to learn beyond the classroom, paving the way to the creation of a skilled workforce in our community.

This merger will bring 4G LTE wireless Internet to more Americans, which will lead to investment and job growth. In the global economy states increasingly compete for jobs and investment. It is essential that Georgia has a technological infrastructure that encourages business to come to our state.

Thank you for your attention to this matter. Again, we at the 100 Black Men of North Metro, Inc. support the merger of AT&T and T-Mobile which will make Georgia better and stronger.

Respectfully,

Dwight D. Kelly

Dwight Kelly

Chapter President
