WT Docket No. 11-65

June 20, 2011

Dear Chairman Genachowski and Members:

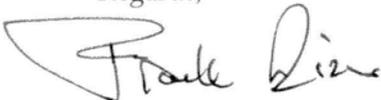

As a longtime wireless consumer, I understand you are considering the proposed AT&T and T-Mobile merger. I support this merger.

As the proprietor of several marketing / web / promotions companies, our business is technology. Whether we are dreaming up the next web portal or helping a Fortune 10 company get consumers energized to purchase products, we are the think tank that companies come to for assistance. Our team is a heavy user of technology and that doesn't stop when we leave the office. We are on 24x7 and always available for our clients.

This requires connectivity - mobile connectivity. When cell coverage is poor, our business suffers. We are critically dependent on having access to mobile data and rock solid voice quality. I understand the AT&T / T-mobile merger will help to improve both of these. I am wholly supportive of any effort that can help my business stay connected and grow.

As you consider this merger, please consider how this will positively impact companies such as mine. We are the kind of organization that is thinking up the next big thing but we need a solid wireless network on which to build it.

Regards,

A handwritten signature in black ink that reads "Frank Rizzo". The signature is stylized, with the first name "Frank" written in a cursive script and the last name "Rizzo" in a more upright, slightly cursive script.
