RE: Request for Extension of Time

Clearwire Spectrum Holdings II, LLC
Transition of the 2500-2690 MHz Band for BRS and EBS
Transition Area: BTA Number 293: Miami-Fort Lauderdale, Florida

WPSWP Licensing Corporation
Transition of the 2500-2690 MHz Band for BRS and EBS
Transition Area: BTA Number 469: West Palm Beach-Boca Raton, Florida

Dear Ms. Dortch:

On September 23, 2008, Clearwire Spectrum Holdings II, LLC (“CSHII”), a wholly-owned subsidiary of Clearwire Corporation filed its Transition Initiation Plan for BTA Number 293: Miami-Fort Lauderdale, Florida. Pursuant to the Commission’s Rules, that Transition is supposed to be completed by June 23, 2010. On September 30, 2008, WPSWP Licensing Corporation (then a subsidiary of Sprint Nextel Corporation, now renamed WPSWP LLC (“WPSWP”) and due to a Commission approved transfer of control, a wholly-owned subsidiary of Clearwire Corporation) (together CSHII and WPSWP referred to herein as “Clearwire”), filed its Transition Initiation Plan for BTA Number 469: West Palm Beach-Boca Raton, Florida. Pursuant to the Commission’s Rules, that Transition was supposed to be completed by June 30, 2010. On July 15, 2010, the Commission granted Clearwire’s request for an extension until January 15, 2011. On January 19, 2011, the Commission granted Clearwire a further extension until July 15, 2011. Clearwire hereby requests a further extension of time to complete the Transition for both BTA 293 and BTA 469 until October 15, 2011.

Clearwire has been diligently working on completing these Transitions since they were each initiated. It obtained all of the information required under the Commission’s Rules through research of the Commission’s databases and through data provided by EBS licenses in response to Clearwire’s Pre-Transition Data Request. As described above, Clearwire filed its Transition Initiation Plans with the Commission and sent its Transition Notices to all of the licensees in the

BTAs, as required under the rules. Clearwire then prepared its Transition Plans and timely sent the Plans out to all 2.5 GHz licensees within the Miami-Fort Lauderdale and West Palm Beach-Boca Raton BTAs. Clearwire has been working with the impacted licensees in these two BTAs since it initiated the Transitions. Due to the large number of licensees involved and the interrelationship of the two BTAs due to geographic location, negotiation of the Transition process and the necessary related agreements took a longer than expected time. The parties did reach agreement between themselves. After several delays in the delivery of equipment necessary to complete the transition, the equipment has finally been delivered and is in the process of installation. But the installation is still underway. To that end, and since this delay is clearly beyond Clearwire's control, it respectfully asks for additional time to complete the Transition process and to file its Transition Completion notice. Clearwire believes that no parties will be prejudiced by grant of this request and notes that it has served the relevant parties to both Transitions.

If there are any questions, please contact the undersigned at (202) 330-4011 or at nadja.sodoswallace@clearwire.com.

Sincerely,

Nadja S. Sodos-Wallace
