

## Request to deny sale of PBS Orlando

I am writing to request that the FCC deny the sale of WMFE PBS Orlando to a religious broadcaster, although listed as “Community Educators of Orlando Inc”, the founder is the head of Daystar Television Network, a religious broadcaster. Orlando has several religious stations already, and although there are a few other PBS stations in Central Florida, they broadcast with a much weaker signal and we do not receive those stations.

We have been supporters of the station for years, no public comments or input was asked before this sale was announced. We rely on this station for great public broadcasting, this sale should not go through to this group.

Sincerely,

Omar R Gonzalez
